Kindred Biosciences, Inc. (“KindredBio,” “we” and “our”) has been notified by its contract manufacturer of the active pharmaceutical ingredient (API) dipyrone that the U.S. Food & Drug Administration (FDA) Center for Veterinary Medicine has follow up questions, following an inspection in March 2019. Once responses are provided by the API manufacturer, KindredBio intends to reactivate the New Animal Drug Application (NADA) for dipyrone injection for the control of pyrexia (fever) in horses. The FDA has granted a shortened timeline of 135 days for review of the NADA. KindredBio will provide an update on the timing of dipyrone injection’s expected approval during its second quarter 2019 results. Regulatory approval is subject to the typical risks inherent in such a process.
